Convention on the Contract for the International Carriage of Goods by Road (CMR), 1956

•Objective:

- Standardize the conditions governing the contract for the international carriage of goods by road, particularly with respect to:
 - Documents used for such carriage
 - Carrier's liability

•55 Contracting Parties

The image shows a blank CMR form, which is a standardized document used for international carriage of goods by road. The form is divided into several sections, including:

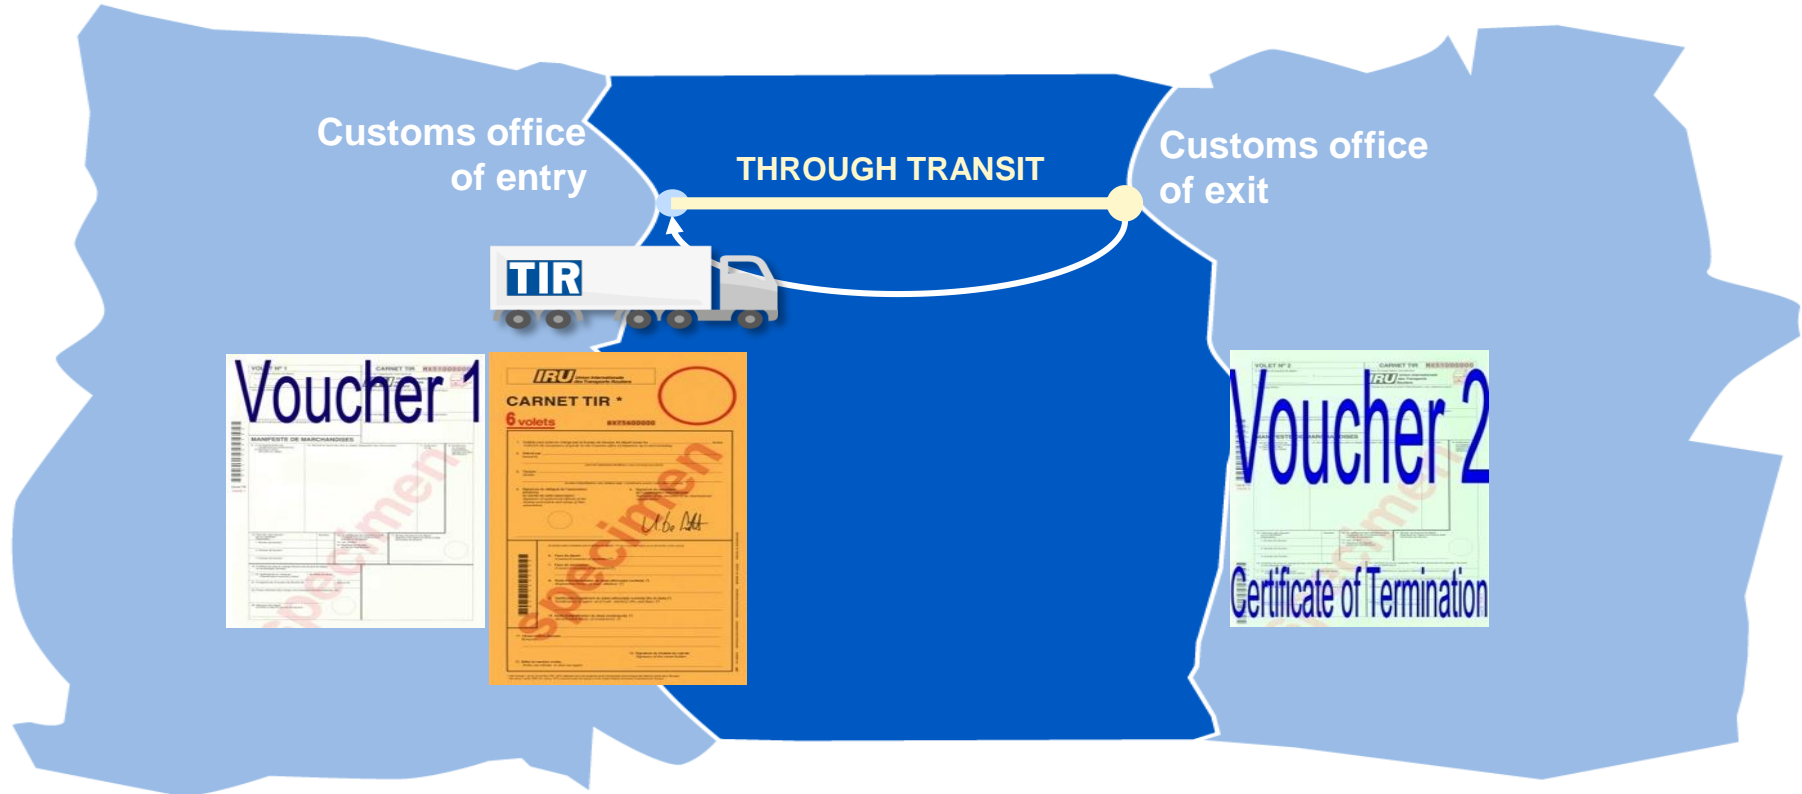

- 1. Identification of the contract:** Includes fields for the date and place of conclusion of the contract, the name and address of the carrier, and the name and address of the consignor.
- 2. Description of the goods:** Includes fields for the nature and quantity of the goods, the weight, and the volume.
- 3. Description of the vehicle:** Includes fields for the type of vehicle, the license plate number, and the name and address of the driver.
- 4. Description of the route:** Includes fields for the place of origin, the place of destination, and the place of delivery.
- 5. Description of the transport conditions:** Includes fields for the type of transport, the mode of transport, and the conditions of transport.
- 6. Description of the liability:** Includes fields for the carrier's liability, the consignor's liability, and the driver's liability.

The form is designed to be filled out by the carrier and the consignor, and it serves as a legal document for the international carriage of goods by road.

- Accessible by all customs officers via the internet from anywhere in the world
- Up-to-date guarantee status

Real-Time SafeTIR (RTS)

WSST

- Automatic real-time data transmission on TIR operation termination
- => **Decrease of manual data entry and its transmission periods**

EGIS

- TIR Carnet validity check in real time
- => **More efficient identification and prevention of irregularities in TIR Carnet use**

WSRQ

- Automation of data reconciliation process
- => **More efficient risk management for all stakeholders**

TIR Holder Portal – TIR-EPD

TIR-EPD Key Features & Benefits

- Fully secure (inc. central DB check)
- Free of charge
- Data import
- Commercial data kept confidential
- EPD sent simultaneously to all countries of itinerary
- Multilingual user interface
 - possible to add any language
- Accessible via the internet from anywhere in the world

TIR-EPD and TIR Carnet

Example of data received by customs:

- National HS codes
- Goods description
- Weight
- Package type and quantity
- Itinerary
- Vehicle details
- Driver's details
- Cost of goods

and more

TIR-EPD = TIR Carnet + additional information
(according to national requirements)

TIR-EPD implementation: advantages for customs

No need to develop own costly application to receive preliminary information

No need for additional expenditures for maintenance and updates – full technical support from IRU

Full compatibility with any customs system
